Package Contents

This package contains:

- 1 Wireless Bluetooth MiniMouse
- 1 Carrying case
- 1 USB battery charger cable
- 1 User manual
- 2 AAA rechargeable batteries
- 1 Warranty/Registration card

If any of the items are missing or damaged, please contact your dealer immediately.

IOGEAR's Wireless Bluetooth Mini Mouse delivers the convenience of a wireless mouse, with the robustness offered by Bluetooth technology. This class 2 Bluetooth mouse gives you a strong signal ranging up to 66 feet. The small and portable design saves precious space in your mobile work area, and it is one less tangled wire in your laptop carrying case.

The ergonomically contoured design and optical sensor offer comfortable use on most surfaces, without the need for a mouse pad. This mouse features 800 dpi resolution, meaning it offers twice the accuracy of typical mouse movement, which is ideal for graphic designing or any other type of computing where precision matters.

For added convenience, the Wireless Bluetooth Mini Mouse also features a power On/Off switch to avoid battery drainage during travel, and a USB charger cable for convenient charging through the USB port on laptops. This mouse is the ultimate tool for the road warrior of today.

Features

- Compatible with any Bluetooth-enabled computer that supports HID profile
- Works up to 66 feet away from computer
- 800 dpi resolution offers twice the accuracy of typical mouse movement
- Operates on most surfaces without the need for a mouse pad
- Light and very portable, great for mobile professionals
- Saves precious space in your mobile work area
- Power on/off switch conserves electricity for maximum battery life
- Comes with a USB charger to allow you to charge batteries through the laptop
- Ergonomically contoured design for comfortable use
- 3 Year Limited Warranty

Requirements

- Bluetooth enabled computer with HID profile support
- If the computer is not Bluetooth enabled, a Bluetooth USB dongle will be required.
Please refer to IOGEAR part no. GBU301, GBU311, GBU201, GBU211 for details

Additional Bluetooth Products

Bluetooth USB Adapter, class 2 (GBU201, GBU211)

Bluetooth USB Adapter, class 1 (GBU301, GBU311)

Bluetooth USB Printer Adapter, class 2 (GBP201)

Bluetooth GPS (GBGPS201)

Pictorial Introduction

1. Scroll Wheel
2. Left Click Button
3. Right Click Button
4. Battery Compartment
5. Battery Cover Release
6. Optical Sensor
7. Power On/Off Switch
8. Connect Button
9. Battery Charging Connection

Installation

BATTERY INSTALLATION

1. Pull the battery cover release toward the direction as indicated in the drawing
2. Insert the batteries (included in the package) into the battery compartment
3. Put the cover back on.
4. Make sure the power On/Off switch is at ON position. We do recommend that you charge the batteries for **10 hours** before using the mouse.
5. To charge the batteries, just plug the USB charger cable into the USB port on you computer, and the mouse, and leave it on.

INSTALLATION INSTRUCTIONS

Before you can use the LOGEAR Bluetooth mouse with your computer, you will first need to establish communication and then connect to it. The procedures below may be different for you, depending on the Bluetooth software you are using. If you need additional help, please consult the manual for your Bluetooth software.

Keep in mind that for the initial configuration, the Bluetooth mouse will not be functional and that you will need to use a different mouse.

Installation

WINDOWS SYSTEMS

In the example below, the Bluetooth software used was Widcomm stack version 1.4.2.

1. Make sure your computer is Bluetooth-enabled and that it supports the Bluetooth HID profile.
2. Turn ON the mouse.
3. Open your Bluetooth software (My Bluetooth Places, in our example)
4. Press and hold the Connect button located under the mouse for approximately five (5) seconds; this will set the mouse in discovery mode.
5. Start the search for Bluetooth devices (Search for devices in range)
6. The IOGEAR Bluetooth Mini Mouse should be listed as shown in the image. If the mouse is not detected, repeat step 4 and search for your Bluetooth mouse again.

Installation

7. Right-click the IOGEAR Bluetooth mouse and select "Pair Device." When prompted to enter a pass key, enter "1234". Your computer and mouse should now be paired.
8. Next, right-click on the mouse icon and select "Connect Device" and when prompted to connect, click Yes.

Installation

9. You should now be able to use the IOGEAR Bluetooth Mini Mouse.

Once you have connected and paired your mouse with your Bluetooth-enabled computer, you don't need to repeat this procedure. Even if you turn on/off the Bluetooth mouse or shut down your computer, the mouse will still connect to the computer when both devices are turned on.

MICROSOFT BLUETOOTH STACK (Windows XP SP2)

The instructions below apply to Windows XP systems with Service Pack 2 installed.

1. Make sure that your computer is Bluetooth-enabled and that the Bluetooth icon shows on your traybar

2. Right-click on the Bluetooth icon and select "Add a Bluetooth Device."

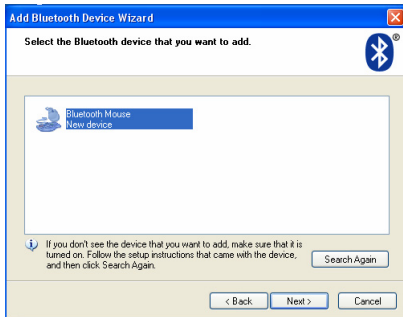

Installation

3. Before proceeding with the Bluetooth Wizard, please do the following:
- Switch ON the Bluetooth mouse
 - Press and hold the “connect” button underneath the mouse for five (5) seconds and then release
 - Click the checkbox “My device is setup and ready to be found” and then click Next.

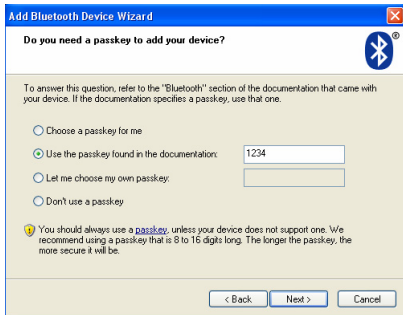

4. Your computer will scan for Bluetooth devices in your area and display all found devices. On this window, you should see “Bluetooth Mouse” as shown below. Select the mouse and click Next to continue.

Installation

5. To pair with the Bluetooth mouse, select "Use the passkey found in the documentation" and enter the PIN code "1234". Upon clicking Next, Windows XP will pair with the mouse and install the necessary drivers for your mouse.

- At this point, the IOGEAR Bluetooth mouse should be functional. Simply click Finish to close the Wizard.

Installation

MAC OS X (10.2.x or later)

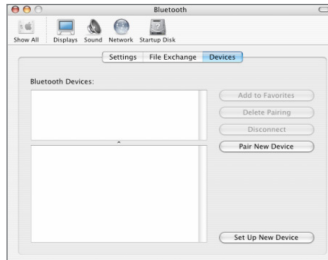

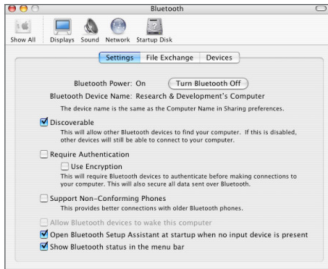

Bluetooth support is built-in in MAC OS X. In the example below, we used MAC OS X v10.3.4 to configure the LOGEAR Bluetooth Mini Mouse.

1. Make sure your computer is Bluetooth-enabled and that it supports the Bluetooth HID profile.
2. Turn ON the mouse.
3. Open System Preferences and double-click on the Bluetooth icon.

Installation

4. Under the settings tab, make sure that Bluetooth is ON and that the box next to Discoverable is checked.
5. Next, select the Devices tab and click on Set Up New Device.

Installation

6. This will start the Bluetooth Setup Assistant. Click continue to proceed.
7. On the next window, select the Mouse option and click Continue.

Installation

8. Turn ON the IOGEAR Bluetooth Mini Mouse, then press and hold the Connect button located under the mouse for approximately five (5) seconds.
9. Once the IOGEAR Bluetooth Mini Mouse is detected, it will be listed under the window below. Select the mouse and click Continue.

Installation

10. Your computer will automatically pair with the Bluetooth mouse. If prompted to enter a PIN code, please use "1234". Upon successful connection, click Continue.

11. You are done! Your Bluetooth mouse should now be functional. To exit the Bluetooth Setup Assistant, click Quit.

Once you have connected and paired your mouse with your Bluetooth-enabled computer, you don't need to repeat this procedure. Even if you turn on/off the Bluetooth mouse or shut down your computer, the mouse will still connect to the computer when both devices are turned on.

Operation

Please avoid using this mouse on glass, mirror and metal surfaces.

When traveling, it is advised that you turn the power On/Off switch to the OFF position in order to save battery life.

When the mouse movements turn sluggish, it may be the time for you to recharge the batteries. Just plug the USB charger cable into the USB port on your computer, and the mouse, and leave it on for a few hours. You don't need to turn off the power, and you can use the mouse when it is charging the batteries. A completely depleted battery requires 10 hours to charge.

Specification

Function		Specification
Battery Type		Ni-Mh
Frequency Band		2.4 Ghz
Interface		Wireless
Operating Range		66 ft. (20m)
Power	Amps	< 20mA
